FROM THE CHAIR

It was great to see 21 members at Whaplode Manor last month to hear a very enjoyable talk on fuels by Eddie Bocquillon from Anglo American Oil. Eddie gave us a wide-ranging talk on everything from classic cars to lawnmowers but all linked to the use of appropriate fuels, not only when they are in action but also, importantly, when they are stored. Catch up with the AA range at www.aaoil.co.uk/products

I was also pleased to hear from Brian Patmore and Paul & Jean Pollard that the Club visit to Bletchley Park had gone well and was enjoyed by all. Brian reports that "everyone came away a lot wiser to the wonderful work that was undertaken on the premises during the dark days of World War Two". Our thanks go to Brian for organising the trip on behalf of the Club.

This month Brian has the second event of his 'double header' with a Meet & Eat at Palmers for our clubnight on Tuesday 12th, whilst April also sees the annual Federation of British Historic Vehicles Clubs' *Drive It Day*. This year our intrepid DID organisers Steve and Liz are heading east to the Norfolk Broads. Let's hope they and all you classic (car) drivers are rewarded with some suitably fine weather. And just a week after that, we have Springfields Show at Spalding on Sunday 1st May where we will have the Club stand, so do come and join us!

Finally, I must say a big thank you to everyone who has renewed their subscription to SEECC this spring. We are heading towards the Club's 8th birthday with a hugely encouraging 145 members on the books. We hope to find events for you all to attend this year but, as always, if you have any suggestions or comments on what we are doing please speak to any Committee member or zip an email off to seecc@btinternet.com

See you at an SEECC event soon...

Steve Saunders clocked this superb **1965 Thames Trader minibus in BOAC colours** at the recent Classic & Custom Car Show held at Fulney, near Spalding on Easter Sunday.

AND FINALLY...

Experimenting with a lightweight wooden head

SECC member **Ian Stancer** is currently into a full rebuild of his trusty Fiat 500's powerplant (actually that's a bit of a misnomer!). He is keeping us up to date on [Facebook](#) (above), adding a bit of his customary wit as the project progresses.

We just all hope that's the engine you are referring to, Ian...
